VICTORIA SUGAR BOWL BY BETHAN GRAY

\$595

DESCRIPTION

The Victoria collection celebrates the tea ritual by merging the British afternoon tradition with a classic Italian and noble material: marble. This superb sugar bowl, part of the set, features a sinuous, hand-carved relief pattern that creates striking, parallel ripples on the surface of the piece made of Arabescato marble. The soft, opaque white of the precious stone contrasts with the brass accent of the lid's handle for a truly unique object that can be combined with the others to create a cohesive look.
