VILLA BORGHESE CHANDELIER

\$23,750

DESCRIPTION

This magnificent chandelier is crafted in the tradition of Ca' Rezzonico pieces, with its superb flower and leaf decorations in Venetian mouth-blown glass. Classic are also the tiered shape of the piece and its colors, such as crystal and gold. This piece, suitable for classically decorated interiors, is shaped as an oval, which is particularly useful for rectangular areas like large corridors, big rooms, or staircases. Its large dimensions were balanced by a light structure that can be crafted for eight or ten lights. Please ask the concierge for details.
