VÌS-A-VÌS SET OF 2 COFFEE CUPS

\$135

DESCRIPTION

This exclusive set of two coffee cups is entirely handmade of a thin sheet of Limoges porcelain to form a cylindrical shape with a stylized nose and mouth, and hand-folded corners forming the base. One cup is white with crystalline glaze and a hand-painted black rim, and the other is in matte black (iridescent black pigments are added to the porcelain base). The anthropomorphic design gives the cups a playful character that does not undermine their sophisticated allure. A perfect housewarming gift, each set will be unique and might slightly vary from the one in the picture.
