VOLTA WHITE TABLE

\$2,240

DESCRIPTION

Bold yet minimalist, the superb table captures the elegant integration of wood and steel that gives it a timeless quality. The steel frame is finished in a glossy white color and features V-shaped legs and a rectangular top. The natural wood insert placed in the center represents a unifying element that balances the weightiness of the steel and creates visual harmony. Named after the architectural keystone ("chiave di volta" in Italian), this table will fit seamlessly into a variety of interior decors, both residential and commercial.
