VOLTO OVALE LIGHT-BLUE GLASS SCULPTURE

\$3,370

DESCRIPTION

Part of the Omaggio a Modigliani Collection celebrating the eponymous painter, this one-of-a-kind sculpture in mouth-blown Murano glass actualizes his dramatic human subjects through the endless potential of glass. The outstanding head, with an elongated neck and face, sits atop a cylindrical, clear base, and displays air bubbles deliberately trapped within for an even more organic effect. Each sculpture is signed by the artisan who crafted it.
