VOLTO QUADRATO AMBER GLASS SCULPTURE

\$3,370

DESCRIPTION

The dramatic facial features immediately identifying Modigliani's human subjects inspired the stylish design of this sculpture mouth-blown of Murano glass and deftly finished by hand. Aptly belonging to the Omaggio a Modigliani Collection, the piece comprises a cylindrical, clear base, onto which sits the anthropomorphic element blending different hues of amber enriched with air bubbles trapped within. Signed by the artisan who crafted it.
