VONNIE BOOKCASE

\$9,795

DESCRIPTION

This striking bookcase is part of the Vonnie collection, inspired by the romance-filled Los Angeles of the 30s with the luxurious elegance of its decor. Crafted in wood, the piece is made of five horizontal shelves painted in white, supported by a vertical structure in bronze. Bronze also wraps each shelf, creating an elegant contrast with the texture and color of the wood and making this piece a sophisticated addition to a living room or a study. Designed for Ted Design Collection.
