VOODOO BASKET N. 1

\$425

DESCRIPTION

Showcased as a precious centerpiece in a rustic dining room or as a unique vide-poche in an eclectic entryway, this basket is a striking decorative object that will imbue with organic charm a contemporary interior. The structure is hand woven using wood that forms a circular wicker texture that rises in a tall top with an uneven profile, the warm tone of the wood highlighted by the copper inserts. This stunning accent piece can be showcased alone or along with the Voodoo Basket N. 2. Metal accents can be substituted with brass upon request.
