VOX ALTA TABLE LAMP BY LORENZA BOZZOLI IN CARRARA MARBLE

\$920

DESCRIPTION

Part of the Vox collection by Lorenza Bozzoli, this table lamp is distinctive for its stunning Carrara marble cylindrical base, whose natural veins over the white background add a one-of-a-kind decorative element to the rigorous geometry of the lamp's silhouette. The conical shade is of satin-finished brass. This elegant and eye-catching piece is inspired by the concept of lightness, as expressed by Italo Calvino in one of his "Six Memos For the Next Millennium", where lightness is not superficiality, but the opposite of oppressiveness.
