VOX ALTA TABLE LAMP BY LORENZA BOZZOLI IN MARQUINA MARBLE

\$960

DESCRIPTION

This stunning table lamp was designed by Lorenza Bozzoli and is part of the Vox collection, distinctive for its striking geometric silhouettes and light sense of movement, inspired by the concept of lightness as defined by Italo Calvino in his "Six Memos For the New Millenium". Lightness is not superficiality, but the opposite of oppressiveness, and this lamp embodies this concept with an elegant combination of a cylindrical black Marquina marble that supports a conical shade with a glossy white finish.
