VOX ALTA TABLE LAMP BY LORENZA BOZZOLI IN PORTORO MARBLE

\$965

DESCRIPTION

Inspired by Italo Calvino's masterpiece "Six Memos For the Next Millennium", in which the concept of lightness is seen as absence of oppressiveness rather than mere superficiality, this table lamp is part of the Vox collection. Each piece of this series, designed by Lorenza Bozzoli, features a cylindrical base in marble, in this case elegant Portoro, supporting a conical polished brass shade. Either alone or combined with others in the same series, this will be a precious piece of functional decor.
