Officine di Murano 1295

VRMOLATO POLYCHROME VASE

\$4,225

DESCRIPTION

An unrepeatable jewel resulting from the unrivaled artistry of master glassblowers in Murano, this singular piece will uplift a console or sideboard in a modern home. Master glassmakers followed the "sommerso" technique to achieve its characteristic layered effect with different glass volumes. A final grinding process lends the piece an intriguing rock-like appearance of high textural appeal.
