W TABLE

\$6,850

DESCRIPTION

The round top of this extraordinary table is crafted in larch wood and features a rotating glass insert in its center. What makes this piece truly unique is its underlying structure, a W shaped base crafted in solid wood with a brushed texture. The top appears to float above the base and the base appears to float above the ground, due to small transparent cylindrical elements between both the base and the floor and the base and its top. This unique piece of furniture will effortlessly ornate any setting, enhancing any existing home decor collection.
