WABI-SABI BALL BLACK AND WHITE SCULPTURE

\$1,320

DESCRIPTION

Molded on a lathe using the colombino technique (coiling), this spherical sculpture is made of "terraglia bianca", a clay typical of the Lodi ceramic tradition, and finished with a clear glaze. The surface is adorned with thin, irregular black lines, obtained with the englobe method, that run along the diameter of the sculpture adding depth and a dynamic quality. This unique piece will develop over time natural cracks and imperfections, a testament to the Wabi-Sabi philosophy of beauty as impermanent and incomplete.

DETAILS & DIMENSIONS

- Material: Ceramics
- Dimensions (in): W 9.06 x D 9.06 x H 11.02
- Dimensions (cm): W 23 x D 23 x H 28
- Handmade In Italy
