## WABI-SABI BOWL WITH STAND

\$100

### DESCRIPTION

This charming bowl with stand was crafted of "terraglia bianca", a specific type of clay used in manufacturing the traditional Lodi ceramics, originated in the town by the same name. In the spirit of the Japanese view of beauty as imperfect and impermanent, each piece is a one-of-a-kind object, boasting small imperfections that add to the preciousness of the object. Either as a vide poche in an entryway or a simple decoration, this piece enriches a contemporary or rustic environment with an organic and earthy accent.
