## WABI-SABI CAKE STAND

\$370

### DESCRIPTION

Inspired by the traditional Japanese concept of beauty called wabi-sabi, this magnificent cake stand will be a sophisticated and unique addition to a eclectic or rustic home. A one-of-a-kind object of functional decor, distinctive for its rich neutral colors, contrasting textures, and small marks that create its charm, this piece was crafted of "terraglia bianca", a clay used traditionally in pottery in the town of Lodi, by Milan. Its ceramic slip cover is adorned with abstract decorations and finished with a semi-transparent, crystal-like varnish that protects it.
