## WABI-SABI DECAL BUST SCULPTURE

\$685

### DESCRIPTION

Handcrafted in the centuries-old Lodi ceramic tradition, this superb sculpture depicts the profile of a woman's head crafted by hand using "terracchia bianca" adorned with a floral decal of Japanese rice paper applied under the crystalline glaze. This sculpture is a one-of-a-kind that will reveal delicate cracks over time, a distinctive feature of the Lodi ceramics and a reflection of the Wabi-Sabi philosophy that beauty can be transitory and imperfect. Please note that reproductions might present slight differences from the pictured item.
