WABI-SABI DECAL JAR

\$660

DESCRIPTION

Masterfully handcrafted of *terracotta bianca*, this decorative vase features a round base with a long cylindrical neck that recalls the ancient jars used to store wine. The crystalline glaze is enriched with a delicate black floral decal of Japanese rice paper and over time will display the delicate cracks distinctive of the centuries-old Lodi ceramic tradition. Reflecting the Wabi-Sabi aesthetics that enhances any irregularity as a mark of beauty rather than defect, each piece will show unique features and slight differences from the pictured item are to be expected. Not suitable for water.
