WABI-SABI TALL POT

\$395

DESCRIPTION

Both a stunning serving container and an indoor/outdoor vase, this tall pot is a striking example of the combination of Italian sensibility with Japanese philosophy. Inspired by the traditional ideal of beauty called wabi-sabi, this pot boasts striking irregularities and asymmetry in its decorations and silhouette. These imperfections are at the core of wabi-sabi, since for this Eastern philosophy beauty is transitory and imperfect. This exquisite piece of functional decor was made of stoneware fired at high temperatures with a surface ceramic slip with a grey finish.
