WALKING HEAD MEDIUM YELLOW FLOWER POT

\$395

DESCRIPTION

Exaggerated humanoid traits and a vibrant, polished yellow glaze lend this majolica flower pot its extraordinary eccentric personality. Entirely unique due to the fully artisan crafting process started with the coiling step, it undergoes a first firing at 960° to obtain terracotta from raw clay, while the second firing step (930°) seals the monochromatic glaze. Please contact the Concierge for color customization options and for the smaller variant.
