WALNUT DINING TABLE WITH CARVED BASE

\$10,320

DESCRIPTION

Showcased in a large foyer or classically decorated living room, this dining table will elevate any home with its exquisite craftsmanship. Inspired by the late 17th-century Ferrarese style, the simple yet bold round top sits on a hand-carved pedestal base that softens the austerity of the design with its polished sinuous scrolls on the curved supporting feet and ornate floral inlays. A matte antique finish completes this masterfully executed piece that pairs with a variety of chair styles.
