La Cividina

WAVES LEAF OTTOMAN

\$3,180

DESCRIPTION

Inspired by the natural shapes of the seaside landscapes, this chaise longue is part of the Waves collection of poufs by designer Constance Guisset. The beechwood frame is padded with flame-retardant, non-deformable, multi-density polyurethane foam and upholstered with light green fabric. The round seat extends upwards in the back with a slim backrest to evoke a leaf shape. This pouf can be used as a statement piece in a contemporary living room or studio, or as part of an original interior design composition when joined with other Waves poufs. Seat height: 30 cm. Contract and commercial certifications available upon request.
