La Cividina

WAVES ORANGE TRAPEZIUM OTTOMAN WITH BACKREST

\$2,460

DESCRIPTION

This modern lounge provides comfort with a fresh and inspiring design that will enrich a modern living room or office decor. Crafted of a solid beechwood frame in a trapezoid shape with rounded corners, this piece features a flame-retardant, non-deformable polyurethane foam padding that enhances the sinuous, elongated shape with the minimal, low backrest. Designed by Constance Guisset, Waves is a modular collection of poufs of different shapes and sizes that can be joined together with a magnet hidden inside each pouf to create unconventional seating compositions. Seat height: 38 cm.
