WHITE ELEPHANT FRUIT PLATE

\$90

DESCRIPTION

This stunning fruit plate depicts a white elephant squirting water out of its trunk. This stunning work of art is unique and can be combined with the others in the same series for a complete look. Part of the Blue Bestiary collection, inspired by a manuscript about herbs published around 1350-1375 in Northern Italy and entitled "Compendium Salernitanum" and J.L. Borges "The Book of Imaginary Beings", this dessert plate was made of clay with a glazed surface and painted by hand with the "engobbio" colors of blue, black, and light grey over the white background.
