WHITE FLOWER CUSHION

\$605

DESCRIPTION

Decorative cushions are the best way to complete a monochromatic room and add a pop of color to an austere look, and this lovely piece will accomplish both tasks with its floral pattern on a crisp white background (cat. A col. 11). The high-density polyurethane foam fill provides long-lasting cushioning that will not lose its shape over time. This accent cushion is an elegant choice that imparts vintage appeal and sophistication to any room in both traditional and modern decors.
