WHITE ROUND ROSA ETRUSCA VASE

\$540

DESCRIPTION

Inspired by the Rosa Etrusca, an Italian tea hybrid rose characterized by a rosette flower with tight petals, this sophisticated bowl is crafted by hand of refractory ceramic using the Raku technique. The classic round shape showcases a smooth surface in an elegant off-white color and a vitrified glossy finish. The base has a diameter of 8 cm and rises up in a delicately rounded silhouette that reaches a height of 28.5 cm and a diameter of 12.5 cm in its wider part. A captivating pattern of budding petals decorates the top that enhances the absolute purity and simplicity of this design.
