**WHITE TALL MONEY BOX BY UGO LA PIETRA**

\$1,300

## DESCRIPTION

Revisiting an object that evokes childhood, this exquisite money box is a modern and chic piece to display no longer in the children's room, but on a console or table, where it can be admired in all its elegance. Handcrafted of ceramic in the Abisola tradition, its oval shape has a small slit on top for the coins and rests on a tiered base to showcase its hand-painted milky-white hue, accented with delicate pointy spots in darker colors. This one-of-a-kind piece, signed by designer Ugo La Pietra, will be an original gift for a special friend of any age.
