Bitossi Ceramiche

WIDE OCHRE AND GREEN VASE BY DIMORESTUDIO

\$1,050

DESCRIPTION

This ceramic vase features an unconventional wide rectangular shape and is glazed with an elegant color block pattern. The top section of the piece, as well as its interior, is glazed in a deep green, while the bottom section is glazed in ochre. Two inserts in the top of the piece have been given an antique gold color for a subtle accent. The opening, which extends halfway across the top of the vase, is large enough to hold a varied arrangement of flowers.
