WINDOW SIDEBOARD

\$24,990

DESCRIPTION

A distinctive rigor of lines, combined with a simple silhouette and warm colors give this piece a powerful allure. This sideboard is a monolith resting on a plinth base, whose structure is in Medium-Density Fiberboard covered in bronze slabs that are lacquered by hand. The front features six doors, of which the four central ones are squares and the two lateral ones follow the shape of the structure. Here, matter is the protagonist and the effect is of subtle and modern elegance.
