WITH CELTIC RUG

\$8,910

DESCRIPTION

Part of the Book of Kells rug series, this piece takes inspiration from the illustrations found in a Celtic manuscript from the 6th century, and it reinterprets these designs in a modern way using texts relevant to the world we live in today. On this rug, the word "with" is written using the twisting and animated Celtic lettering. This piece was entirely hand knotted in India by expert rug makers using a 90% wool and 10% silk blend and it is customizable in its size. This is a timeless piece which can suit any decor.
