WOOD SIDEBOARD

\$14,620

DESCRIPTION

Inspired by mid-century, modern furniture design, this refined sideboard will be at home in modern and contemporary decors with its simple silhouette that exudes timeless elegance and formal balance. Adorned with a lacquer-finished eucalyptus veneer, the frame has four doors (three in wood and one with a black-lacquered panel) and a stunning top in metal with a brushed-copper finish, matching the details that outline the profile of the piece and the four knobs in the shape of the company logo. Supported by tapered legs, this sideboard will provide storage space in any living or dining room.
