Ceramiche Lega di Martina Scarpa

WOOD VIDE POCHE

\$960

DESCRIPTION

This superb vide poche stands out for its vivid colors and textures surface. Ranging from green to bright orange, the colors are obtained by combining cobalt, olive green, and silver nitrate that vitrify thanks to the reduction firing at high temperatures. The seductive flounced design is finally sealed with the firing at 950°. Differences from the pictured item are to be expected due to its handmade production.
