WORN GRAY 2-SEATER SOFA BY SAMUEL WILKINSON

\$5,440

DESCRIPTION

Part of the Worn Collection, this two-seater sofa's essential silhouette and tailored details make it an absolute statement addition to a modern living room. The metal structure, reinforced with elastic belts, is padded with high-density polyurethane while the plywood backrest is filled with goose feathers. Upholstered in pearl gray fabric, the strategically positioned patch on the slim armrests, highlighted by visible stitching, is the characteristic feature of the collection: the natural, untreated leather will develop a natural patina over time giving each sofa a unique character.
