X3 POUF

\$5,125

DESCRIPTION

X3 is an exquisite, modern pouf that effectively combines two mere steel components to develop a multifunctional seat boasting three different, possible configurations: regular pouf, inclined pouf and rocking pouf. The curved, supporting base features a connecting system allowing to easily switch from one type of seat to the other, while the elliptical, 3mm-thick steel structure of the seat is wrapped by an elastic network of rope that makes the pouf slightly sprung. A final upholstery in translucent PVC completes this versatile seat, which is also available without its steel support.

DETAILS & DIMENSIONS

- Material: Steel Methacrylate
- Dimensions (in): W 35.43 x D 27.56 x H 13.78
- Dimensions (cm): W 90 x D 70 x H 35
- Handmade In Italy
