XANTO SCULPTURE

\$15,180

DESCRIPTION

Entirely handmade using ancient techniques, this marble sculpture of a horse is a magnificent piece of art that will boldly shape the character of any room. Drawing from mythological themes, the horse's contorted snout in Ornavasso pink marble and wispy hair are elegantly rendered in life-like proportions, to symbolize strength and resurrection of the soul and spirit in trying times. Sculptor Abele Vadacca utilizes a technique of hollowing out the interior of the sculpture to give the marble a translucent effect when placed in the light.
