ZETA TRANSPARENT SIDE TABLE/MAGAZINE HOLDER

\$950

DESCRIPTION

This elegant and minimalist piece is an exquisite example of functional design. It is made from a piece of transparent glass that was bent and curved to acquire the shape of a Z (which is "Zeta" in Italian, hence the name). The top is curved at a 45 degree angle to create the diagonal magazine holder, which doubles to end in a vertical support. Particularly suited for a contemporary decor, this piece will make a statement in any room.
